PROFESSIONAL SUMMARY

Dedicated Full Stack Developer with technical proficiency in building end-to-end web applications using modern JavaScript frameworks and scalable backend services. Specialized in bridging the gap between responsive UI design and robust REST APIs, with a strong focus on maintaining clean architecture and high-performance optimization. Proven ability to rapidly prototype features and deliver end-to-end product requirements within Agile development environments.

PROFESSIONAL EXPERIENCE

Abe Garage Management Solutions | Full Stack Developer **XYZ**

- **Full-Stack Application Engineering:** Engineered a comprehensive garage service application using React and Express.js, which improved service request tracking efficiency by approximately 30% for administrative users.
- **Database Architecture & Schema Design:** Designed and optimized relational MySQL database schemas to accurately manage 100+ client entries and detailed scheduling logs through structured data organization.
- **Responsive Interface Optimization:** Implemented responsive UI components using Tailwind CSS to ensure seamless workflow transitions across mobile and desktop platforms, increasing accessibility scores for the platform.

E-Commerce & Media Technology (Web Projects) | Full Stack Developer **XYZ**

- **High-Fidelity UI Development:** Replicated high-performance landing pages using modular React components and Tailwind CSS, resulting in a 25% reduction in asset load times for media-heavy specification pages.
- **RESTful API Integration:** Built robust RESTful backend endpoints with Express.js and MySQL to dynamically deliver product data and media categories for high-traffic streaming UI clones.
- **Asynchronous Data Management:** Developed efficient state management systems for movie browsing interfaces that utilized asynchronous data fetching to handle over 50+ concurrent media query requests smoothly.

SKILLS & TECHNOLOGIES

Professional Skills: JavaScript (ES6+), React, Node.js, Express.js, REST APIs, Agile/Scrum

Tools & Technologies: Tailwind CSS, HTML5, CSS3, MySQL, Git, GitHub, VS Code

Languages: English (Professional Working Proficiency), Amharic (Native)

EDUCATION

Injibara University | Bachelor of Science in Software Engineering **Expected Graduation: 2028**

Injibara, Ethiopia
